## DAVISSON'S KICK.

Objects to a Committee Attending the Morrissey Funeral.

## WANT A SOLDIERS' HOME.

The Legislature Asked to Contribute One Day's Pay to a Most Worthy Object.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—Senator Davison, of Harrison county, created a sensation in the senate this morning by entering a protest against any committee from the senate attending the funeral of the late Senator Morrissey. He moved to reconsider the vote by which a committee was appointed and declared that the character of the dead senator was such as not to warrant public recognition. His motion to reconsider was tabled.

A Soldiers' Home.  
Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—Dr. S. H. Headlee and Comrades Miller and Coppedge, all G. A. R. men of Phelps county, are here to ask the legislators to contribute one day's pay to the fund for a Soldiers' Home for G. A. R. men. They propose to buy the magnificent home of the late Wm. James, of St. James, known as the "Iron King." It will accommodate 100 old soldiers.

The Fellow-Servant Bill.

JEFFERSON CITY, Mo., May 15.—The fellow-servant bill was up for consideration in the senate yesterday afternoon. The Peers bill was up for engrossment, but the friends of a real fellow-servant bill, under the leadership of Yeater and Kennish, succeeded in materially amending it.

Briefly this is what the bill as amended provides for: It provides that any person or corporation employing more than twenty-five persons and engaged in any hazardous business is liable to action for damages for injuries incurred through the negligence of a fellow servant. It provides that employer and employee may enter into contracts providing for insurance against injuries received by employees, but imposes a fine of \$1,000 upon the employer for attempting to intimidate or coerce an employee into making the insurance contract, and this insurance is no bar to recovery of damages by common law. In fact, a fellow-servant has the same rights as other men. One-half of the cost of the insurance shall be borne by the employer.

Section 11 provides that this act shall not apply to any person or persons using agricultural or other machinery which is not propelled by steam or electricity. An amendment secured by Senator Love, of Jackson, provides indemnity under the insurance contract of 75 per cent of the amount of wages the employee was earning at the time of the injury.

Senator Peers started in to make a bitter speech in the midst of which the senate adjourned. Yeater will probably reply today and pay his respects to the lobby.

No Business in the House.

Special to the DEMOCRAT.

JEFFERSON CITY, Mo., May 15.—The house was in session just an hour today when it adjourned until Friday at 10 o'clock in respect to the late Senator Morrissey. No business was transacted. A resolution to cut off the Sunday pay of clerks was voted down, when the republican majority found itself tired, so it forced an adjournment.

May Be a Compromise.

JEFFERSON CITY, Mo., May 15.—The conference election committee did not report as was expected yesterday. Senator Mott's absence, who is at home attending the funeral of his son, has a tendency to delay the matter. Although no agreement has been arrived at it is understood that the committee is on the brink of a fair compromise bill. No members of the Kansas City safety committee put in an appearance today, as was expected.

H. T. Kent and Franklin Ferriss, attorneys for the St. Louis safety committee, appeared before the conferees to answer any objections brought forward against the safety bill. "I have every reason to be-

lieve," said Mr. Kent last night, "that the prospects for an election bill are exceedingly bright. The members of the conference committee seem to be upon excellent terms with each other. It looks to me as though an agreement was sure to follow."

## THE "KATY" ELECTION.

## CIRCUIT COURT.

A Replevin Suit on Trial—Judgments for Receiver Latimer.

The time of the circuit court has been occupied today in hearing the evidence in the replevin suit of W. H. Rhodes against W. A. McNulty for the possession of the dam of the horse McDoel, with a record of 2:15 1/4. The case is still in progress. Sangree & Lamm and W. S. Jackson are attorneys for the plaintiff, and Judge W. S. Shirk for the defendant.

Other entries were made during the day as follows:

Changes at the Hospital.

Mr. and Mrs. J. C. Asher, who have had charge of the City hospital since its opening, will retire today in favor of Mr. and Mrs. Ross, of Indiana. No fault is found with Mr. and Mrs. Asher, it is said, as they have filled their respective positions most creditably.

## A CLOSE CALL.

Frank McAllister Stunned by a Bolt of Lightning.

As Frank McAllister, the bartender, was passing along West Main street, at about 4:30 o'clock this morning, and when in the vicinity of the Sedalia Ice Manufacturing company's plant, he was stunned by an electrical bolt and had an extremely narrow escape from death.

Mr. McAllister says that the current seemed to have struck him about the top of the head and plowed its way through his system till it reached the ground where he was standing. As soon as the current reached the earth, however, he began to recover, and was able to resume his journey to his place of business.

Will Not Pay.

At a meeting of the stockholders of the defunct First National bank, last night, a majority decided to let Receiver Latimer collect the 75 per cent assessment at the end of a law suit.

## MISSOURI CROPS.

Considerable Damage Was Done by the Frost.

The Missouri weekly crop report bulletin says: "From the 5th to the 10th the temperature averaged from 9 to 14 degrees above the normal, but on the evening of the 10th a cool wave spread over the state and the mean temperature of the 11th was from 6 to 12 degrees below the normal. Light frosts occurred on the morning of the 11th, doing slight damage to tender plants in some of the northern counties.

"Drought still prevails in a number of the western and several of the east central and southeastern counties, greatly injuring or retarding all crops. Considerable damage to fruit and crops over small areas by wind and hail is reported in several counties.

"In the central and western section the condition of wheat has fallen off during the week, owing to the ravages of chinch bugs and lack of moisture. Corn is reported a good stand in all sections and cultivation is now general."

Late reports from several of the northern counties state that frost did some damage to beans, potatoes and other tender vegetation on the morning of the 12th.

Out Only Twenty Minutes.

The jury in the suit of Mrs. Frame vs. Woodmen of the World was out only twenty minutes, and not until a late hour, as stated by a morning paper. The children also have a claim against the order for the same amount, \$1,000, and it will be decided by the result of the first suit.

Teachers Elected Friday.

## TWO MEN SENTENC'D

Both Were Guilty of Cold-Blooded Murders.

## ONE KILLED HIS FATHER.

The Latter Sentenced to Prison for Life—The Other Given a Ten Year Sentence.

At Clinton, yesterday, Judge J. H. Lay passed sentence upon two murderers, both having had their cases taken to Henry county on a change of venue.

William Arnwine, a Lawrence county man, who shot his son-in-law, and was convicted in the May, 1894, term of the Henry county circuit court, was given a sentence for ten years in the penitentiary, says the Democrat. Arnwine quarreled with his daughter's husband, and when the latter, standing on his own door step, ordered the old man to go away, Arnwine drew a revolver and in the presence of his daughter, Mrs. Keating, shot her husband, George Keating, dead.

The trial just a year ago resulted in a verdict of "guilty of manslaughter in the second degree," but sentence was arrested upon a technicality, Judge Lay sustaining a motion in arrest of judgment made by the defense because of an alleged defect in the indictment. This law point was by the prosecution appealed to the supreme court, which lately held against Arnwine, and he was accordingly remanded for sentence. He is an old man now, and it is very doubtful if he lives out the term for which he was sentenced.

On the evening of March 1st, 1894, Lone Oak township, in the southern part of Bates county, was shocked by a terrible crime.

William Long, an aged farmer, who gave the alarm, stated that he found his father in a dying condition, the back of his head and body literally riddled with shot. The old man's iron constitution enabled him to rally, but, although he lived nine days after the shooting and was rational up to the moment of his death, he could not tell by whose hand he fell or what motive prompted the deed.

Neighboring young men were arrested, but no case could be made against them. The next day after the murder, enough suspicious circumstances were discovered to warrant the arrest of George Long upon the suspicion of the crime of slaying his own father. He strenuously maintained his innocence and finally secured a change of venue to Henry county.

Sheriff Collyer took the accused to Clinton Monday and he was arraigned, when, by consent, he withdrew his former plea of "not guilty" and pleaded "guilty" of murder in the second degree. Judge Lay thereupon sentenced Long to the penitentiary for life, speaking at some length upon the enormity of his crime.

## OUR CIRCUIT JUDGE.

Governor Stone Will Visit Sedalia Before Making the Appointment.

Special to the Democrat.

JEFFERSON CITY, Mo., May 15.—Your correspondent interviewed Governor Stone today about the Pettis county judgeship. The governor was asked if he had changed his mind about the method he had selected of making the appointment. "No," said he, "I intend to do exactly as I said last winter. I will go to Sedalia in person and have interviews with all persons interested about the proper person for judge of your circuit. I want, as I said before, to choose the very best man qualified for the place that I can get to accept it. I will endeavor to find out who that man is in my own way. Anybody desiring to communicate with me on this subject can do so freely when I come to Sedalia, and it will be a pleasure to me to hear every one."

Some Paying; Others Not.

THE DEMOCRAT, SEDALIA, MO.

OFFICE, 307 Ohio Street. Telephone 222.

SEDALIA will give her thousands of visitors a royal welcome on the 26th.

THE government expenses for the fiscal year ending July 1st, will exceed the revenue by \$55,000,000.

CAPITALISTS are surveying for a railroad south from Springfield. If they will head this way they will receive a cordial welcome.

THERE is more improvement going on in Sedalia this spring than in any other town of the size in the west. It is substantial improvement, too.

EVERY loyal Sedalian should be at work raising the capital guarantee fund. The sooner that fund is in the hands of the governor the better it will be for Sedalia.

No property owner should refuse to sanction needed street improvements at this time. Paved streets and nice, smooth sidewalks are worth to a city every cent they cost.

THE Hume Exchange has a well written article in favor of moving the capital to Sedalia, and publishes in connection with the article a double column picture of our handsome mayor.

THERE is great destitution among the coal miners in Osage county, Kansas. The mines are closed down and the business men of the towns have carried the miners as long as they can afford to do so.

FELLOW-SERVANT legislation is having a rocky road at Jefferson City just now. Railroad employees should learn a lesson from this year's experience and insist upon candidates pledging themselves to support the measure.

THE DEMOCRAT today publishes a brief interview with Governor Stone on the subject of the circuit judgeship. The Governor states that he intends to visit Sedalia and use every effort to determine who is the best man for the place.

It is one thing to misrepresent a business enterprise. It is quite another thing to attempt to substantiate charges in court, as the parties who have attacked the Commonwealth Land and Development company will find to their sorrow.

THE Jefferson City Courier objects to the late game of base ball on the ground that it was "professional" against "amateur." Well, that is the old fight over again. Sedalia is a professional town, an up-to-date town, while Jefferson City is amateurish in everything.

THE state capital was removed from St. Charles to Jefferson City. The stock argument used against removal at that time was just what Jefferson City is using now—"real estate speculation." Of course Sleepy Hollow had forgotten the campaign, but the laugh is on the locality just the same.

THE Commonwealth Land and Development company proposes to give Messrs. Kinealy and Myers all the law they want and has accordingly brought suit against them in the Cole county circuit court charging them with conspiracy to injure said company. Damages to the amount of \$50,000 is asked by the company.

THE esteemed Gazette thinks "the years 1890 and 1891 were two of the most prosperous this country has enjoyed for many years." The public remembers, however, the great complaint that was heard during those years and the thousands who were out of employment and in need of the necessities of

life. The political tidal wave which swept the country in 1892 was caused by the hard times, business depression and universal distrust of the party that was in power in 1890.

MEMBERS of the Grand Army of the Republic are in Jefferson City asking the members of the general assembly to contribute one day's pay to aid in buying the James mansion, in Phelps county, for a soldiers' home. The object is a worthy one, and the request will doubtless be granted.

ONE of the southern iron companies sold 100 tons of pig iron the other day for delivery at Liverpool, says the Kansas City Times, and another has dispatched sales agents to Spain and Italy. The signs are that in the near future the United States will be making the pig iron for the world, and the plea for protection will be regarded as an evidence of insanity. The release of American industry from the bondage of McKinleyism was a great advantage in industrial life on this side of the water.

ALL the talk about Mr. Cleveland being nominated for the presidency in 1896 by the democracy is the rankest rot. If he is nominated by any convention it will be a combine of the single gold standard republicans and democrats. The democrats of the country are opposed to Mr. Cleveland's financial views and are unalterably opposed to a third time in the White House for any man. The monarchical element of the east will furnish the only supporters that the Cleveland candidacy will be able to muster.

THE demonetization of silver by the gold standard advocates has made it impossible to accurately determine now what would be the true commercial ratio between silver and gold if both were given the same rights at the mints. Until both are freely coined no one can authoritatively say what the true ratio is and the only practicable plan is to adopt the ratio that prevailed when last silver was freely coined. But under no circumstances should bimetalists quarrel among themselves as to the ratio. First restore to silver its function as a money metal. Then, and not until then, can the true ratio be determined.

## TOOK CARBOLIC ACID.

John Shaw, of Joplin, Ended His Life in Kansas City.

John Shaw, of Joplin, about 50 years old, committed suicide at the Colorado hotel, in Kansas City, yesterday by swallowing one-half ounce of carbollic acid.

Shaw left a long letter, saying that he was a banker in Warwick township, Toronto, Canada, at one time. He failed and came to this country. He drifted westward and got employment in the smelter at Joplin, where he lost all of his money.

He charged his wife with being faithless to him, and claimed that a man of the name of William Brisson led her astray. He left 10 cents to each of his children.

## A BLOW ON THE HEAD.

Mysterious Death of Dr. G. W. Talbot at St. Joseph.

Dr. G. W. Talbot, a leading physician of Denver, Colo., was found dead in a room in the St. Charles hotel in St. Joseph yesterday.

He arrived there Monday night, and during the night, it is supposed, died suddenly, as there were no indications of a struggle. He was on his way to Easton to visit his father, Dr. J. S. Talbot.

The coroner found that he came to his death from concussion of the brain caused by a blow on the head, but where he received it is a mystery.

## Entertained at Lunch.

Supreme Chancellor Allen and Supreme Recorder Hofmeister, Legion of Honor, St. Louis, were in the city last night and entertained Sedalia council and a few friends at lunch at Seicher's. Chancellor D. E. Kennedy, of the Sedalia council, presided. R. Johnson and the Dudley Buck quartette sang, Wm. Latour recited "And the Other One Was Booth," and addresses were made by Chancellor Allen and A. C. Baldwin.

Buckles, buckles, buckles, at Chas. Bard's.

## MISSOURI'S CAPITALS.

She Has Had Three Already and Will Have Another.

To the Editor of the SEDALIA DEMOCRAT: A short time ago, at your request, I gave a statement of the former capitals of this state, which was published in the DEMOCRAT. Since that time the board of trade of this city has published an address to the people, in which they make the statement that St. Charles was the first capital of the state. As this does not agree with my communication to you, I looked the matter up again and I find that if the board had given the facts as I did they would not have gone on record with the mistake that they have made.

The constitution of 1820 contains the following relating to the capital: "Article XI. of the permanent seat of government" provides that the general assembly should, at their first session, appoint five commissioners for the purpose of selecting a place for the permanent seat of government. They were to purchase four sections of land, from the United States if they could, and if not, then not exceeding six hundred and forty acres from private persons, but the place selected should be on the bank of the Missouri river, and within forty miles of the mouth of the Osage, and if approved by the general assembly should be the seat of government after the first day of October, 1826.

The constitution further provided that the general assembly should meet in St. Louis, and during the first session should decide upon the place where they should meet until 1826. The legislature did meet in St. Louis, and held the first session in that city. During the session the legislature fixed upon St. Charles as the seat of government until 1826, and the extra or second session of the general assembly was called to meet at St. Charles.

The above statement shows that Missouri has already had three capitals—St. Louis, St. Charles and Jefferson City. The place has been decided according to what best suited the people of the state. In 1820 the center of the state, on the Missouri river, was the most convenient and accessible, and now it is proper and right to move it to a place that has become more accessible.

Anyone who has ever had an attack of inflammatory rheumatism will rejoice with Mr. J. A. Stumm, 220 Boyle Heights, Los Angeles, over his fortunate escape from a siege of that distressing ailment. Mr. Stumm is foreman of Merriam's confectionary establishment. Some months ago, on leaving the heated work room to run across the street on an errand he was caught in the rain. The result was that when ready to go home that night he was unable to walk, owing to inflammatory rheumatism. He was taken home, and on arrival was placed in front of a good fire and thoroughly rubbed with Chamberlain's Pain Balm. During the evening and night he was repeatedly bathed with this liniment, and by morning was relieved of all rheumatic pains. He now takes especial pleasure in praising Chamberlain's Pain Balm, and always keeps a bottle in the house.

## Some Meat That Has Not Advanced.

Notwithstanding the fact that all classes of fat stock have advanced out of sight of all expectation, the Newton Meat Co. wish to call the attention of the public generally that they have not advanced the price on their prime Sunday roast beef, and they are selling more of those fine roasts than ever, for they are something that is hard to get elsewhere. For this reason we have the largest amount of cold storage by one-half than any two other markets in Sedalia, and we cut our prime roasts off several days before they are offered for sale and put them away in our mammoth refrigerators and when they come out and are sent out to our customers they never fail to give the very best satisfaction. This is something that cannot be had elsewhere in Sedalia.

In fact all of our meats are held in our cold storage vaults for several days before they are offered for sale. This is why they give much better satisfaction than you get elsewhere.

We notice one fact which will give an idea of what estimation is placed upon our meats. Whenever any family is expecting company and want something extra and prime they always call on Newtons to furnish the meats. Why is this? You all know.

## DISCHARGE OF A. R. U. MEN

Items of Interest Picked Up From Various Sources for the Benefit of "Democrat" Readers.

A special train arrived at Denison, Texas, Monday night, containing the directors and officials of the Missouri, Kansas and Texas railroad. The party was composed of Henry C. Rouse, William Dowd, Joel Freeman, Simon Sterne and Charles C. Hedge, of New York; John N. Simpson and E. M. Reardon, of Dallas; F. N. Finney, of Milwaukee; T. C. Purdy and James Haggerman, of St. Louis. The gentlemen were joined there by Judge J. M. Lindsey, of Gainesville.

Yesterday morning the stockholders' meeting of the Missouri, Kansas and Texas, was held. The entire capital stock of the company was represented, the stock held in the east being voted by President H. C. Rouse. The following board of directors was elected: Henry C. Rouse, Colgate Hoyt, William Dowd, of New York; R. C. Foster, of Denison; J. F. Simpson and E. M. Reardon, of Dallas; O. T. Lyon, of Sherman; J. M. Lindsey, of Gainesville, and T. C. Purdy, of St. Louis.

Upon the adjournment of the stockholders' meeting, the directors held their meeting, at which the following officers were elected: Henry C. Rouse, president; Colgate Hoyt, first vice president; T. C. Purdy, second vice president; John N. Simpson, third vice president, and E. D. Halstead, secretary and treasurer.

The New York parties named above will pass through Sedalia this evening, en route home from Parsons, where the annual meeting of the M., K. & T. stockholders for that portion of the road north of Denison was held today.

## A. R. U. Men Let Out.

What is regarded as a direct blow to the American Railway Union was struck by the Great Northern yesterday afternoon when Division Superintendent J. B. Rice, acting under written instructions from Gen. Supt. E. W. McKenna, discharged the three most prominent A. R. U. men, all train dispatchers employed by the company at St. Cloud, Minn.

The news created a sensation, as no cause was assigned, and because it is believed by many, and so asserted by the discharged men, that it is on account of their affiliation with the A. R. U. The three were W. H. Clark, president of the union; A. E. Buser, secretary, and Samuel Welch, delegate to the last national convention in Chicago. The men have been very active in increasing the membership of the local union. Clark is one of the oldest railroad men there and the other two have been in St. Cloud for sometime.

## Dead Train Robber Identified.

The real name and identity of the train robber who was killed in the fight with the police at St. Joseph has at last been disclosed. The man who died at the City hospital and was buried in the potter's field under the name of Tom Farrell was Patrick Shea, and his home was in Kansas City, Kas.

There he has a stepmother and sister living, and his brother-in-law is an employe of Armour's packing house. Shea was an outcast and a fugitive from justice. Young Richard Rau was not his first victim. He was a killer by nature. He slew his stepbrother, Con McGuire, and fled a long time ago. He was a brother of a fire marshal in Kansas City.

## Coach, Cab and Caboose.

Officer John De Long is hand-shaking with old friends here today. Milton Barde, of the Katy shops, dined yesterday on potatoes from his own garden.

Officer P. M. Lally went to St. Louis on Missouri Pacific train No. 6 this forenoon.

Superintendent H. G. Clark and L. D. Hopkins went west over the Lexington branch yesterday afternoon.

Geo. H. Jones, who was injured in the narrow gauge yards a few days ago, was taken to the Missouri Pacific hospital in St. Louis yesterday afternoon.

Wm. H. Smith, one of the leaders

of the strike on the Grand Trunk last summer, was arrested at Holly, Mich., yesterday, charged with causing the fatal wreck on that road at Battle Creek in July last. Smith has eluded the detectives ever since the accident.

President Rouse and party, of the M., K. & T., who attended the stockholders meeting at Parsons at noon, will pass through Sedalia this evening, en route to St. Louis on a special train.

W. H. Simpson, M., K. & T. operator at Denison, was operated upon at the hospital here yesterday, the chest cavity being opened and an abscess removed. His early recovery is now anticipated.

Thos. H. Rogers, of Denison, Texas, chief clerk in the office of Assistant General Manager A. A. Allen, of the M., K. & T., and Jas. Snedaker, in the "Katy" offices at Parsons, passed through the city this morning, on their way to St. Louis.

The first session of the twenty-fifth convention of the grand division of the Order of Railway Conductors was called to order at 1 o'clock yesterday afternoon at Atlanta, Ga., by Grand Chief Conductor Clarke. Three hundred and fifty delegates were present, with 600 other conductors in attendance. Organization was effected during the afternoon, after which an adjournment was had until today.

## HUNTING A LOST SISTER.

J. A. Wineburg, of Michigan, in the City Looking for His Sister.

Mr. J. A. Wineburg, of the state of Michigan, arrived in the city today in search of his sister, Miss Mary Wineburg, who was last heard of here some time in July, '94, says yesterday's Warrensburg Star. Miss Wineburg was an agent for the Taylor system of dress cutting.

Mr. Wineburg says that Mary's and her mother's home was at North Manchester, Ind., and that Mary had been traveling in this state selling the dress cutting system. "Mary," says Mr. Wineburg, "was always in the habit of writing letters home regularly until last July, when the last letter ever received was written from here."

Mr. Wineburg has made a number of inquiries since his arrival, but finds no clue to the whereabouts of his missing sister. He left on the 3:18 train for Sedalia, where he expects to resume his search.

## Lost An Ear.

Hon. Ira B. Warner, according to news received here yesterday, was the victim in an unfortunate affair Saturday. He became involved in an affray with a laborer on his farm, in St. Louis county, and in the fight one of his ears was bitten off.—Jefferson City Tribune.

Mr. Warner is a cousin of the Blair brothers of this city.

## The Figures Transposed.

In the last published statement of city officers the figures show \$12.45 to have been collected by Samuel Sprecher, the retiring weighmaster, and \$28 by Chas. Gross, who succeeded Mr. Sprecher. The amounts should have been transposed, as Mr. Sprecher's collections were \$28 and Mr. Gross' \$12.45.

## THE SCHOOL BOY

—is often a sufferer from headache. The seat of sick headache is not in the brain, for if you regulate the stomach and bowels you'll cure it. Too much brain-work and brain-tire brings on a rush of blood to the head with headache, dizziness or "nose bleed."

Miss BERTHA WOLFE, of Dayton, California, writes: "I suffered from loss of appetite, constipation, neuralgia, and great weakness, and had terrible attacks of sick headache very frequently; also nose bleed. My health was so poor that I was not able to go to school for two years. I took Dr. Pierce's Pleasant Pellets and 'Golden Medical Discovery,' and in a short time I was strong and well. Many friends are taking your medicines, seeing what they have done for me."

## CLASS-DAY EXERCISES.

While in Stockton, Cal., some time ago, Thos. F. Langan, of Los Banos, that state, was taken very severely with cramps and diarrhoea. Hechanced to meet Mr. C. M. Carter, who was similarly afflicted. He says: "I told him of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and we went to the Holden drug store and procured a bottle of it. It gave Mr. Carter prompt relief, and I can vouch for its having cured me."

Dear Sirs—I have been a tobacco fiend for many years, and during the past two years have smoked fifteen to twenty cigars regularly every day. My whole nervous system became affected, until my physician told me I must give up the use of Bac, and various other remedies, but without success, until I accidentally learned of your "Baco-Curo." Three weeks ago today I commenced using your preparation, and today I consider myself completely cured; I am in perfect health, and the horrible craving for tobacco, which every inveterate smoker fully appreciates, has completely left me. I consider your "Baco-Curo" simply wonderful, and can fully recommend it.

Yours very truly, C. W. HORSICK.
